

Job Title: IT Consultants [Web Development – all levels]

Location: East Kilbride

TUV NEL provides programme management, engineering and technical services to meet the needs of industry worldwide. We are part of the TÜV SÜD Group, the leading global technical services company, serving customers in a wide range of industries. The TÜV SÜD Group is represented internationally by more than 600 locations worldwide, with 13,000 employees and has an annual turnover of €1.1 billion. We are a leading provider of services, solutions and technology to an international customer base across a variety of sectors, including Oil & Gas, Government and Renewable Energy. As an expanding and progressive organisation, excellent development prospects are available to ambitious and capable individuals.

TUV NEL Management Consulting delivers bespoke and secure web development services to major government clients. Due to continued growth, we are looking for talented web developers at various experience levels. Successful candidates will work within a dynamic team on challenging projects. Appointments will be initially on a 1 or 2 year contract basis.

The role:

- Full Life Cycle Development for external clients
- Working directly with client contacts to establish their requirements
- Delivering web development solutions for challenging applications
- Responding to ad hoc database search requests from clients, using SQL queries

Experience:

- It is essential for candidates to have solid commercial web development and relational database experience
- Experience with the following is desired but not essential: Coldfusion, SQL Server 2005, T-SQL, Ajax, XML, Sharepoint
- Experience of working in a quality environment

Personal Attributes:

- Enthusiastic about new technologies and learning new skills
- Excellent problem solving with the ability to produce solutions that are carefully thought through
- Willingness to work interdependently and share knowledge with other team members
- Conscientious about delivering solutions that are right first time

Qualifications:

- Degree-level qualification in an IT-related discipline and/or qualification to HNC/HND level together with appropriate experience

These are excellent opportunities for the right candidates to further their careers as part of the team delivering a £multi-million technology innovation portfolio that includes: the UK Technology Programme, European FP7 services, and eGovernment services to the Department of Health. Cross-training from other technologies (for example .net) will be provided for the right candidates.

Salary: commensurate with skills, experience and qualifications

A comprehensive and flexible range of employee benefits is available including a group personal pension scheme. Further information regarding the company can be found at our website www.tuvnel.com.

To apply, please send a copy of your CV, **including current salary & salary expectations**, to jmiles@tuvnel.com or alternatively apply by post to: Jan Miles, TUV NEL Ltd, HR Department, East Kilbride, Glasgow, G75 0QF

All job applicants are asked to refrain from including the following information on their CV as these will not be used in the recruitment selection process:

- Date of birth
- Age
- Sex
- Marital status
- School names
- Religion

Closing Date: Friday 24 April 2009
